

Human Services

Degree Awarded: Bachelor of Arts

Requirements for the Major: 47 credits plus 6 prerequisite credits

A major in Human Services assists students developing knowledge and skills to work with all people offering specialized assistance that focuses on prevention and remediation of problems to help them meet their needs and improve their overall quality of life. Students take courses to establish a diverse background for understanding human behavior and complex interactions. Students gain practical skills, work experience and knowledge from internship experiences in community, mental health and other agency settings. Des Moines and the Polk County area have many agency settings to choose from. Students prepare to work in direct care service areas, assisting and serving diverse populations and ages. Students also prepare to meet the needs of individuals, families, and/or communities to help them function as effectively as possible in a variety of settings: group homes and halfway houses; correctional, intellectual disability, and community mental health centers; family, child, and youth service agencies; and programs concerned with alcoholism, drug abuse, family violence, and aging. Other students can prepare to work in community crisis centers, outpatient clinics, public and private social service agencies, hospitals, schools and religious organizations. Since all Human Services majors are required to complete two, 150 hour internships, they are well equipped to join the workforce on or before graduation. Most students chose an internship where they will continue to work after graduation. Other students may decide to attend graduate school.

Prerequisite courses for the major:

Essential Competencies-Outcome Iterations

****Transfer courses do not receive outcome iterations****

			CI	IL	W	O	Q	GA	V
