

Grand View University
Master of Science in Athletic Training
Athletic Training Observation Form

All students applying to the Master of Science in Athletic Training Program are required to complete a minimum of 50 hours of observation with a nationally certified and state licensed athletic trainer. In some states licensure is not required for clinical practice as an athletic trainer. Please make a note in the form if this applies to your observation experience. The following form is used to record and report the number of hours completed by the student.

Date	Observation Site	Signature of Athletic Trainer*	BOC#	Licensure #	Hours
Total Number of Hours					

*If signature is unreadable please have the athletic trainer print their name as well.
