

Grand View Core with IHCC Course Options

These equivalencies are only a guide and subject to change without notice.

Grand View's core consists of:

- I. **Core Foundations**
 - a. Core Seminars
 - b. Composition
 - c. Quantitative Reasoning (QRF)
- II. **Core Domains**
 - a. Understanding and Appreciation of the Fine Arts (AFA)
 - b. Understanding the Natural World (NW)
 - c. Questions of Faith and Meaning (FM)
 - d. Understanding Society and Human Behavior (SHB)

For IHCC courses without a direct equivalent course, general subject and domain codes are assigned ie. Soccs-shb = a sociology course that meets Domain Understanding Society and Human Behavior

ESSENTIAL COMPETENCIES

In all of their classes taken at Grand View, students will be challenged to develop their skills in mastering the seven General Education Core objectives: Critical Inquiry (CI), Information Literacy (IL), Written Communication (W), Oral Communication (O), Quantitative Communication (Q), Global Awareness (GA), and Vocation (V).

Applications or “iterations” of each of these will appear throughout the curriculum, in the Core Seminars, Domains of Inquiry classes, and classes within the student’s major.

The number of iterations of each Core objective that is required of the student will depend on the number of credits the student transfers upon admission to Grand View University:

- 0-27 credits upon admission = 4 instances required of each iteration
- 28-59 credits upon admission = 3 instances required of each iteration
- 60-89 credits upon admission = 2 instances required of each iteration
- 90 or more credits upon admission = 1 instance required of each iteration.

All full time freshmen will be required to complete 4 instances of each iteration, no matter how many credits they bring in with them.

Iterations of Core objectives may not be transferred to Grand View, but must be taken at Grand View. Iterations for each course are listed in the course description section of the catalog.

TRANSFER WITH AN ASSOCIATE OF ARTS DEGREE

The Associate in Arts degree (AA) satisfies the Grand View University General Education Core requirements for the baccalaureate degree except for the composition and quantitative reasoning courses (unless fulfilled by transfer coursework), Core Seminars II and III, and the required number of outcome iterations (number determined by class status on entry to the University as defined above). See the University Catalog for details.

Students holding any Associate’s degree other than an Associate of Arts degree are not exempt from the general degree requirements.

TRANSFER WITH A BACCALAUREATE DEGREE

Students holding a baccalaureate degree or higher from an accredited institution based in the United States are considered to have fulfilled all Grand View University General Education Core requirements except for the completion of one iteration of each of the Core outcomes and Core Seminar III. See the University Catalog for details.

Students holding baccalaureate degrees from accredited institutions based outside the United States are frequently considered to have fulfilled all General Education Core requirements except for the completion of one iteration of each of the Core outcomes, Core Seminar III, and composition, though Grand View reserves the right to make a determination of comparability.

Courses from other institutions may be reviewed for applicability in one of the four domains. Please contact the Registrar’s Office for more information.
